achieve SAFETY

A leading oil and gas company automated their paper-based safety process using achieve-SAFETY

The challenges our client trusted us with

The key problems our client asked us to solve:

► Replace paper and excel processes with system automation and integration

► Improve internal workflow processes and prevent non-conformant risk

► Mobilise safety teams, reduce travel time and associated expense

How achieve-SAFETY helped

Through a partnership engagement, we helped the client demonstrate:

► Improved ROI with a 60% reduction in billing expenses

► Increased business productivity by 30% with automated workflow processes

► The achieve-SAFETY app reduced travel expenses by 20%, delivering substantial cost savings
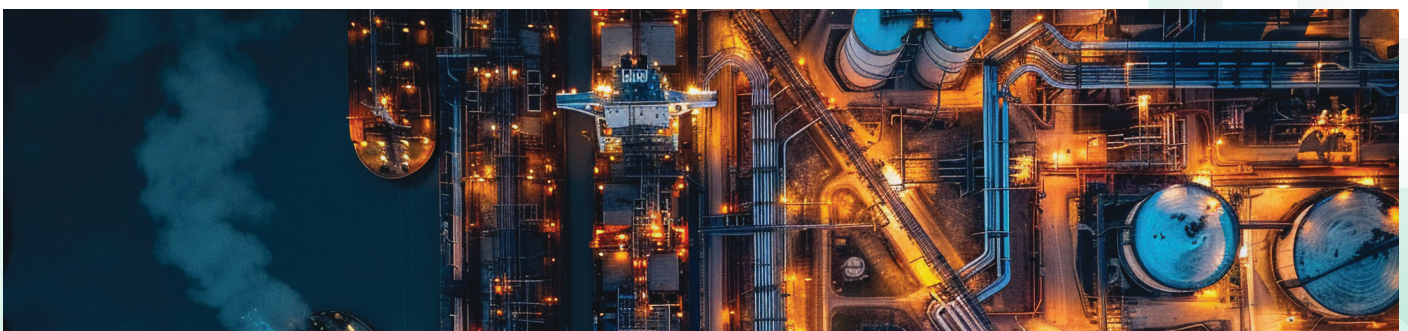

The outcome for our client

Each year our client can now:

► Automate monthly reports saving 20% year-on-year on headcount (FTE)

► Invest business savings of approx USD 120,000 back into business operations

> " achieve-SAFETY is easy-to-use and helps us meet the requirements of the quality, environmental health, and safety systems that our clients are looking for."
